Part I. Securities Information

I. Offering Conditions

1. **【Newly-Issued Shares】**

Class of Shares	Number of Shares Issued
Common Stock	11,099,232 shares (Notes 1, 2, 3)

- (Notes)
1. The above number is based on the number of issued and outstanding shares of Kioritz (69,042,472 shares) (as of the end of April 2008) and the number of issued and outstanding shares of Shindaiwa (26,081,600 shares) (as of the end of March 2008). Accordingly, if stock acquisition rights or other rights are exercised before the day immediately preceding the date of incorporation of the joint holding company, Yamabiko Corporation (“Yamabiko”), the number of shares which Yamabiko will issue may differ.
 2. Common stock of Yamabiko will be issued through the share transfer (the “Share Transfer”) which will be conducted pursuant to the resolutions of the respective meetings of the Boards of Directors of Kioritz and Shindaiwa held on April 14, 2008 (pertaining to the approval of the Share Transfer Plan (described below) and the proposal regarding the Share Transfer Plan for the respective meetings of shareholders of both companies), and the special resolutions (pertaining to the approval of the Share Transfer Plan) of the respective ordinary general meetings of shareholders of Kioritz and Shindaiwa scheduled to be held on June 27, 2008.
 3. Kioritz and Shindaiwa intend to apply to list the shares of Yamabiko on the Tokyo Stock Exchange Group, Inc. (the “Tokyo Stock Exchange”).

2. **【Method of Offering】**

Offering shall be made through Share Transfer. (Notes 1 and 2)

(Note 1) Common stock of Yamabiko will be issued to the shareholders of Kioritz and Shindaiwa whose names are recorded or registered on the respective shareholders’ registers as of the day immediately preceding the date of incorporation of Yamabiko. Yamabiko will allocate and deliver 0.123 shares of its common stock per share of common stock of Kioritz and 0.1 shares of its common stock per share of common stock of Shindaiwa. The issue price for each shareholder is the aggregate issue price divided by the number of shares issued, among which the amount credited to capital is the aggregate amount of capitalized surplus divided by the number of shares issued. Although the aggregate issue price has not been determined as of the date of the filing of the Registration Statement, the aggregate sum of the respective amounts of shareholders equity (book value) of Kioritz as of the end of the most recent fiscal year (November 30, 2008) and Shindaiwa as of September 30, 2007, is 30,344,128,675 Japanese yen, and 6,000,000,000 Japanese yen of the aggregate issue price will be credited to capital.

(Note 2) Yamabiko is currently applying to be listed on the First Section of the Tokyo Stock Exchange pursuant to procedures in Rule 201(2) of the Listing Regulations of the Tokyo Stock Exchange (the “Listing Regulations”), and the shares of Yamabiko are expected to be listed on the First Section of the Tokyo Stock Exchange through a ‘technical listing’ (Rule 2(73), Rule 208 of the Listing Regulations) as of December 1, 2008. Technical listing is a system by which, when a listed company is dissolved by merging with an unlisted company or becomes a wholly owned subsidiary of an unlisted company through a share exchange or share transfer, the shares and other securities which are issued by such unlisted company may be promptly listed pursuant to confirmation of compliance with the liquidity criteria stipulated in the Listing Regulations; provided, however, that only those companies which have made

a listing application within 6 months from the effective date of the relevant transaction are eligible (Regulation 216(1)).

N/A

Significant Matters to be Noted with Respect to Offering or Sale

1. Listing on the Tokyo Stock Exchange

Yamabiko intends to list the offered common stock referred to above in “1. Offering Conditions” in accordance with the ‘technical listing’ method described above in Note 2 of “(2) Method of Offering” of “I. Offering Conditions”.

2. Restrictions on the transfer of shares of Yamabiko, and other restrictions

It is expected that those shareholders who have not deposited their share certificates representing the shares of common stock of Kioritz or Shindaiwa with the Japan Securities Depository Center, Inc. (the “JASDEC”) prior to the Share Transfer, and to whom common stock of Yamabiko will be allocated, will be affected in the following ways:

- a. First, it is expected that it will be practically impossible to transfer or otherwise dispose of common stock of Yamabiko during the period between the effective date of the Share Transfer and the date of implementation of the Law Amending the Law concerning the Transfer of Corporate Bonds, etc., for the Purpose of Rationalization of Settlement Involving Transaction of Shares, etc., and other Laws (Law No. 88 of 2004) (the “Settlement Rationalization Law”), regardless of the method by which share certificates representing the shares of Yamabiko are delivered or the method by which a shareholder requests that shares be transferred to an account upon depositing the relevant share certificates with the JASDEC.

In relation to the Share Transfer, if a public notice regarding the submission of share certificates (*kabuken teishutsu koukoku*) is released stipulating that share certificates representing common stock of Kioritz or Shindaiwa must be submitted to the respective companies, the relevant share certificates will become invalid as of the effective date of the Share Transfer. Furthermore, although there are two methods to transfer or otherwise dispose common stock of Yamabiko - which are to (i) deliver share certificates representing such common stock to Yamabiko, or (ii) dispose of the common stock of Yamabiko by depositing the share certificates representing the common stock of Yamabiko which will be allocated through the Share Transfer with the JASDEC and requesting that such certificates be transferred to an account - both methods are conditional upon the share certificates representing the common stock of Yamabiko being issued at the time of the transfer or other disposition of such common stock. However, it is expected that it will be practically impossible to deliver the share certificates representing the common stock of Yamabiko which will be allocated through the Share Transfer to shareholders until the date of implementation of the Settlement Rationalization Law (which is expected to be early January 2008). Accordingly, it is expected that, during the period between the effective date of the Share Transfer and the date of implementation of the Settlement Rationalization Law, it will be practically impossible to transfer or otherwise dispose of common stock of Yamabiko.

- b. Second, the transfer or other disposition of common stock of Yamabiko may be further restricted for a period from several weeks to more than one month subsequent to the date of implementation of the Settlement Rationalization Law.

This means that those shares represented by share certificates which are not deposited with the JASDEC as of the date of implementation of the Settlement Rationalization Law will be recorded in a special account which Yamabiko will establish subsequent to a certain period of implementation. In order to transfer (apply to transfer) these shares after the date of implementation of the Settlement Rationalization Law, a shareholder will have to transfer the relevant shares into his/her own general account in a securities company or other organization. A shareholder who does not have a general account will have to open a general account in his/her name with a securities company or other organization and transfer the relevant shares into such account. The administrative procedures involved in recording the relevant shares under the special account, including establishing a general account and transferring such shares to such account may require from several weeks to more than one month from the date of implementation. Furthermore, because, pursuant to the Settlement Rationalization Law, share certificates may not be deposited with the JASDEC during the period between 2 weeks prior to the date of implementation and the day preceding such date of implementation, as described above in “a.”, it is expected that it will be administratively impossible to deliver the share certificates representing the common stock of Yamabiko that will be allocated through the Share Transfer to shareholders until the date of implementation of the Settlement Rationalization Law, and it is also expected that it will be practically impossible to deposit such share certificates with the JASDEC during the period between the effective date of the Share Transfer and the day preceding the date which falls two weeks prior to the date of implementation of the Settlement Rationalization Law. As a result of the aforementioned, even after the implementation of the Settlement Rationalization Law, those shareholders who have not deposited their share certificates representing common stock of Kioritz and Shindaiwa with the JASDEC prior to the Share Transfer may be restricted in their ability to transfer or otherwise dispose of the common stock of Yamabiko for a period from several weeks to more than one month after the implementation date of the Settlement Rationalization Law.

- c. Third, in addition to the above, with respect to any Yamabiko shares that have not been deposited with the JASDEC, if such shares are recorded in the name of another person on the shareholders' register and a transfer of such shares on the shareholders' register is also incomplete, and remains incomplete as of the implementation date of the Settlement Rationalization Law, such shares will be recorded under the name of such other person in the special account, pursuant to the regulations of Settlement Rationalization Law. Accordingly, the genuine shareholder may lose their rights with respect to such shares. As described above

in “a.”, it is expected that it will be practically impossible to deliver the share certificates representing the common stock of Yamabiko that will be allocated through the Share Transfer to a shareholder until the implementation date of the Settlement Rationalization Law. Accordingly, if a shareholder who has not deposited his or her share certificates representing the common stock of Kioritz or Shindaiwa with the JASDEC prior to the Share Transfer and who holds such shares under the name of another person has not completed the transfer of shares to his or her own name on the Yamabiko shareholders’ register by the implementation date of the Settlement Rationalization Law, they will not be recorded in the special account as of such implementation date, and may lose their rights as genuine shareholders with respect to such shares.

In consideration of the above factors, those shareholders to whom common stock of Yamabiko will be allocated who have not deposited their share certificates representing the common stock of Kioritz or Shindaiwa before the Share Transfer may incur a detriment as a result of not being able to transfer or otherwise dispose of such common stock within the desired period or under the desired conditions, or losing their rights as the shareholder with respect to such common stock.

Part II. Organizational Restructuring (Tender Offer under the Financial Instruments and Exchange Law of Japan)

I. Summary of Organizational Restructuring (Tender Offer)

1. 【Purpose of Organizational Restructuring】

1. Purpose and Reason of Management Integration

In every market which targets maintaining greenery all over the world, one of the businesses on which Kioritz and Shindaiwa focus is the manufacture and sale of outdoor power equipment with compact engines. In recent years, the outdoor power equipment industry, in which both companies Kioritz and Shindaiwa operate, has seen increased price competition from developing countries, in addition to continued international market reorganization, and increasing competition on a global level. Furthermore, in addition to the diversification of market demand, both companies are literally in a battle for survival with other companies as a result of factors such as the U.S. and other countries responding technologically to emissions standards in the last ten years.

Under these circumstances, Kioritz and Shindaiwa, on the basis of their existing amicable relationship entered into a business and capital alliance agreement aimed at producing attractive and globally competitive products and enhanced product lineups, and establishing innovative development and production systems which would facilitate the realization of such goals. As a result of broad-ranging considerations conducted since then in each division, including development, purchasing, production, distribution and sales, among others, with respect to the possibility of sharing management resources while achieving the goals of the alliance, the effects of the alliance, in areas such as the complementary supply of products and the collaborative development of new products, are yielding results already.

However, the two companies reached the conclusion that in order to further improve the efficiency and pace with which internationally-focused strategic development is put into practice, and to promote the further enhancement of corporate value in the increasingly-competitive environment, shared ownership and management integration is the ideal choice.

Kioritz supplies its high quality “ECHO” brand products, which center around compact engine technology and are produced in production bases in Japan, the U.S. and China, all over the world through its international sales network, and continues to develop as the leading manufacturer of outdoor power equipment. In addition to this, Kioritz has also become a leading company for domestic agricultural machine maintenance which the Company has developed from its own pest-control technology.

In addition to successfully commercializing its 4-cycle engine C4 Technology® which passes the highest level of global emissions standards in the compact engine field, Shindaiwa has also established a unique position for itself in each product market aimed at professionals as an advanced manufacturer holding several global patent technologies in fields such as welders and generators, and is continuing to explore new business opportunities in domestic and overseas markets, including the U.S.

Kioritz and Shindaiwa believe that the management integration synergies to be gained through the shared ownership, consolidation and supplementation of the management resources of both companies, including the specialized development and manufacturing technologies and sales systems which both companies have built up, will be substantial.

As a machinery and equipment manufacturing group whose business centers around agricultural machine maintenance; generator equipment and outdoor power equipment, Yamabiko, which will be established through the Share Transfer, hopes to improve the overall corporate value of the group and continue to fulfill the expectations of all of its stakeholders, while continuing to value the respective corporate cultures, brands and histories of Kioritz and Shindaiwa, and contributing to society through its corporate activities.

The basic strategies and anticipated benefits as a result of the management integration are as follows:

1. Taking the utmost advantage of the brand power of the three “ECHO” “Shindaiwa” and “Kioritz” brands which are owned by Kioritz and Shindaiwa, developing a global marketing strategy that effectively uses each of the specialized sales and distribution networks, expanding the business and improving its efficiency.
2. Through the cooperative use and integration of unique technologies such as technology used in the development and manufacture of compact engine products, technology related to pest-control machinery and technology related to generator equipment, decreasing the time needed for product development and commercialization and expanding the product lineup for more diversified markets.
3. Combining the respective production facilities, manufacturing technologies and material procurement networks currently held by Kioritz and Shindaiwa, and taking advantage of economies of scale to reduce costs, while aiming for improvements to product quality and productivity.
4. Improving the management services, including the financial and information systems, of Yamabiko, Kioritz and Shindaiwa in pursuit of optimization as a group, restructuring, eliminating and consolidating as necessary, and improving services.
5. In order to respond promptly and accurately to the expansion of operations, or to changes in the market or the industry, prioritizing efforts to restructure the businesses, and promoting the establishment of a more robust financial health and a secure revenue base.

Kioritz and Shindaiwa intend to apply to list the shares of Yamabiko, which will be established through the Share Transfer, on the Tokyo Stock Exchange. Although the date on which the shares of Yamabiko will be listed is to be determined pursuant to the regulations of the Tokyo Stock Exchange, among others, such date is expected to be December 1, 2008, the date of incorporation of Yamabiko. The shares of both Kioritz and Shindaiwa are expected to be delisted from the Tokyo Stock Exchange in accordance with the Share Transfer as of November 25, 2008.

1. Contents of the Share Transfer Plan

Conditional upon the approval of the respective general meetings of shareholders of the two companies, Kioritz and Shindaiwa developed a share transfer plan at their respective meetings of the Board of Directors held on April 14, 2008. Under the Share Transfer plan, Yamabiko will be established and become the parent company holding 100% of the shares of Kioritz and Shindaiwa through the Share Transfer, with a target date for completion of the plan of December 1, 2008 (scheduled).

Pursuant to the Share Transfer plan, Yamabiko will allocate and deliver 0.123 shares of its common stock per share of common stock of Kioritz and 0.1 shares of its common stock per share of common stock of Shindaiwa. Shareholders' resolutions with respect to the approval of the share transfer plan and matters necessary for the Share Transfer are required at the extraordinary general meeting of shareholders of Kioritz and the ordinary general meeting of shareholders of Shindaiwa, both of which are to be held on June 27, 2008. Other than the above, the Share Transfer plan defines the trade name, location of head office, officers, amount of capital and reserves, listing of shares, administrator of shareholders' register, distribution of surplus and handling of stock acquisition rights of Yamabiko, among others (For details, please refer to "2. Contents of the Share Transfer Plan" below).

2. Contents of the Share Transfer Plan

Share Transfer Plan (Copy)

Kioritz Corporation ("Kioritz") and Shindaiwa Corporation ("Shindaiwa") reached an agreement to conduct a joint share transfer, and accordingly, Kioritz and Shindaiwa plan the share transfer as follows (the "Share Transfer Plan").

Article 1 (Share Transfer)

Pursuant to the provisions of the Share Transfer Plan, Kioritz and Shindaiwa shall jointly transfer all issued and outstanding shares of Kioritz and Shindaiwa to their new parent company ("Yamabiko"), in exchange for shares of common stock of Yamabiko, upon the incorporation of Yamabiko (the "Share Transfer").

Article 2 (Matters to be Described in the Articles of Incorporation of Yamabiko)

The Articles of Incorporation of Yamabiko shall include the purpose, trade name, location of head office, total number of authorized shares as well as any other matters set forth in the "Articles of Incorporation of Yamabiko Corporation" attached herewith.

Article 3 (Names of Directors, Statutory Auditors and Accounting Auditor of Yamabiko at the time of Incorporation)

- (2) Capital Reserve: 1.5 billion Japanese yen
- (3) Earned Reserve: 0 Japanese yen

Article 6 (Date of Incorporation)

The date of incorporation of Yamabiko (the "Date of Incorporation") shall be December 1, 2008. The Date of Incorporation may be changed, upon consultation between Kioritz and Shindaiwa, if such change is necessary to consummate the Share Transfer or for any other reasons.

Article 7 (General Meeting of Shareholders to Approve the Share Transfer)

1. Kioritz shall hold an extraordinary general meeting of shareholders on June 27, 2008 to propose the Share Transfer Plan and matters necessary to consummate the Share Transfer for approval.
2. Shindaiwa shall hold an ordinary general meeting of shareholders on June 27, 2008 to propose the Share Transfer Plan and matters necessary to consummate the Share Transfer for approval.
3. The date of the shareholders' meetings described in the preceding two paragraphs may be changed, upon consultation between Kioritz and Shindaiwa, if such change is necessary to consummate the Share Transfer or any other reasons.

Article 8 (Listing of Shares of Yamabiko)

Yamabiko plans to list its shares on the Tokyo Stock Exchange on the Date of Incorporation.

Article 9 (Administrator of Shareholders' Register)

The administrator of the shareholders' register of Yamabiko shall be The Chuo Mitsui Trust and Banking Company, Limited.

Article 10 (Distribution of Surplus)

1. Kioritz shall distribute up to 5 Japanese yen per share from its surplus to its shareholders or registered pledgees who are listed or recorded on its shareholders' register as of November 30, 2008.
2. Shindaiwa shall distribute up to 4 Japanese yen per share from its surplus to its shareholders or registered pledgees who are listed or recorded on its shareholders' register as of March 31, 2008.
3. Shindaiwa shall distribute up to 3 Japanese yen per share from its surplus to its shareholders or registered pledgees who are listed or recorded on its shareholders' register as of September 30, 2008.

Article 11 (Stock Acquisition Rights)

1. In the event that the Share Transfer Plan is approved at the general meeting of shareholders of Shindaiwa stipulated in Article 7 above, Shindaiwa shall acquire and cancel all unexercised stock acquisition rights of Shindaiwa, without consideration, by the day prior to the Date of Incorporation.
2. If any stock acquisition rights are exercised prior to the acquisition of the stock acquisition rights (as described in the preceding paragraph), so long as it holds treasury shares, Shindaiwa shall, instead of issuing new shares, deliver such treasury shares upon exercise of the stock acquisition rights.

Article 12 (Duty of Care)

After developing the Share Transfer Plan and until the Date of Incorporation, Kioritz and Shindaiwa shall conduct their respective businesses and manage their assets with the care of a good manager. With respect to actions which may have a material effect on assets or rights and obligations (including, but not limited to the distribution of surplus and the acquisition of treasury shares pursuant to the resolutions of the general meeting of shareholders or the meeting of the Board of Directors), unless otherwise stipulated in the Share Transfer Plan, Kioritz and Shindaiwa shall, upon prior consultation, take such action after obtaining consent of the other party.

Article 13 (Change of Circumstances)

After developing the Share Transfer Plan and until the Date of Incorporation, if (i) there is a significant change in either Kioritz or Shindaiwa's assets or management, (ii) matters which significantly affect the consummation of the Share Transfer arise or become apparent, or (iii) the objective of the Share Transfer becomes extremely difficult to attain, Kioritz and Shindaiwa may, upon consultation, change the conditions of the Share Transfer Plan and any other contents thereof, or cancel the Share Transfer.

Article 14 (Effectiveness of the Share Transfer Plan)

The Share Transfer Plan shall terminate if (i) the Share Transfer is not approved by the shareholders of either Kioritz or Shindaiwa at the meetings of shareholders (described in Article 7 above), or (ii) approval from the relevant governmental authority as defined in the relevant laws and regulations is not obtained.

Article 15 (Matters to be Discussed)

Matters not stipulated in the Share Transfer Plan and any other matters necessary for the Share Transfer shall be settled, in accordance with the purpose of the Share Transfer Plan, by consultation between Kioritz and Shindaiwa.

IN WITNESS WHEREOF, the parties have caused this Share Transfer Plan to be executed in duplicate, to be signed and sealed by each party, and each party shall keep one copy of the originals.

4. 【Details of Allocation with Respect to Organizational Restructuring and Basis of Calculation】

1. Share Transfer Ratio

Company Name	Kioritz	Shindaiwa
Share Transfer Ratio	1.23	1

(Notes) 1. 0.123 shares of Yamabiko will be allocated and delivered for each share of Kioritz, and 0.1 shares of Yamabiko will be allocated and delivered for each share of Shindaiwa. In the event that fractional shares constituting less than a whole unit are generated with respect to the common stock of Yamabiko to be delivered to shareholders of Kioritz or Shindaiwa through the Share Transfer, pursuant to the provisions of Article 234 of the Company Law, an amount of cash equivalent to the value of such fractional shares shall be paid to the shareholders.

The above share transfer ratio (the “Share Transfer Ratio”) may be changed, upon consultation of both companies, if material changes are made to underlying conditions that formed the basis of the calculation.

2. One unit of Yamabiko shares is expected to constitute 100 shares. Shareholders who hold one unit or more of Kioritz or Shindaiwa shares will be allocated and delivered one or more unit of Yamabiko shares. (Each unit of Kioritz and Shindaiwa shares currently constitutes 1,000 shares).

3. Number of shares expected to be issued by Yamabiko in the Share Transfer
Common stock: 11,099,232 shares

The above number is based on the number issued and outstanding shares of Kioritz as of the end of April 2008 and of Shindaiwa as of the end of March 2008. Accordingly, if stock acquisition rights or other rights are exercised before the date of incorporation of Yamabiko, the number of shares which will be issued may differ.

2. Basis of Calculation of the Share Transfer Ratio

a. Basis and Background of the Calculation

In order to ensure fairness when calculating the Share Transfer Ratio, Kioritz appointed Nomura Securities Co., Ltd. (“Nomura Securities”), and Shindaiwa appointed Daiwa Securities SMBC Co., Ltd. (“Daiwa Securities SMBC”) as their respective financial advisors for the management integration, and obtained independent calculation reports on the Share Transfer Ratio from them.

Nomura Securities conducted the calculation with respect to both companies using (i) the average market price method, and (ii) the discounted cash flow method (the “DCF method”). The following shows, for each calculation method, the ranges of the valuation of common stock of Kioritz in exchange for one share of Shindaiwa:

	Calculation method	Valuation range of share transfer ratio
1.	Average market price method	Between 1.328 and 1.365
2.	DCF method	Between 1.034 and 1.358

With respect to the average market price method, Nomura Securities conducted the calculation as of April 9, 2008, with reference to (i) the share price as of April 9, 2008, (ii) the average closing prices for the one month period ending on April 9, 2008, and (iii) the average closing prices for the period between the business day following the date on which the releases entitled “Third Quarter Financial and Business Results for the Fiscal

Year Ending March 31, 2008” and “Notification with Respect to Revisions to Business Results Forecasts (Consolidated and Individual) for the Fiscal Year Ending March 31, 2008, and Revision to Projected Dividend” were released by Shindaiwa (February 8, 2008) and April 9, 2008, in order to take into account any effects of such releases.

When conducting the calculation of the Share Transfer Ratio, Nomura Securities assumed, without independently verifying, the accuracy and completeness of the information that was furnished to Nomura Securities by Kioritz and Shindaiwa, and information that was publicly available. Furthermore, Nomura Securities did not conduct an independent valuation, audit or appraisal of any assets or liabilities (including contingent liabilities) of Kioritz or Shindaiwa, or any of their related companies, including analyses and valuations of individual assets and liabilities, and were not provided with any such valuations or appraisals by a third party. The calculation conducted by Nomura Securities reflects information and economic conditions of the companies as of April 9, 2008, and Nomura Securities has assumed that financial forecasts for both companies (including profit plans and other information) have been reasonably prepared based on the best estimates and judgments of the companies’ respective managements.

Daiwa Securities SMBC conducted the calculation with respect to both companies using (i) the market price method and (ii) the DCF method. The results of the calculation by Daiwa Securities SMBC are indicated below. The table below shows, for each calculation method, the ranges of the valuation of common stock of Kioritz in exchange for one share of Shindaiwa:

	Calculation method	Valuation range of share transfer ratio
1.	Market price method	Between 1.38 and 1.40
2.	DCF method	Between 1.09 and 1.27

With respect to the market price method, Daiwa Securities SMBC conducted the calculation as of April 9, 2008, with reference to (i) the volume weighted average price for the one month period ending on April 9, 2008, and (iii) the volume weighted average price for the period between the business day following the date on which the releases entitled “Third Quarter Financial and Business Results for the Fiscal Year Ending March 31, 2008” and “Notification with Respect to Revisions to Business Results Forecasts (Consolidated and Individual) for the Fiscal Year Ending March 31, 2008, and Revision to Projected Dividend” were released by Shindaiwa (February 8, 2008) and April 9, 2008, in order to take into account any effects of such releases.

When conducting the calculation of the Share Transfer Ratio, Daiwa Securities SMBC assumed, without independently verifying, the accuracy and completeness of the information that was furnished to Daiwa Securities SMBC by Kioritz and Shindaiwa, and information that was publicly available. Furthermore, Daiwa Securities SMBC did not conduct an independent valuation, audit or appraisal of any assets or liabilities (including contingent liabilities) of Kioritz or Shindaiwa, or any of their related companies, including analyses and valuations of individual assets and liabilities, and were not provided with any such valuations or appraisals by a third party. Daiwa Securities SMBC has assumed that financial forecasts for both companies (including profit plans and other information) have been reasonably prepared based on the best estimates and judgments of the companies’ respective managements.

Based on the calculation of the Share Transfer Ratio conducted by their financial advisors and after giving comprehensive consideration to the respective financial conditions, assets, and factors behind their business outlook, Kioritz and Shindaiwa, upon careful discussions, agreed that the aforementioned Share Transfer Ratio is appropriate.

b. Relationship with the Appraisers

Neither Nomura Securities nor Daiwa Securities SMBC is a related party of either Kioritz or Shindaiwa.

5. 【Differences between Shares Issued by Companies Subject to Organizational Restructuring (Kioritz and Shindaiwa) and Shares to be Issued through Organizational Restructuring】

1. Purchase of securities

The Articles of Incorporation of Yamabiko include a provision to the effect that, unless otherwise provided under laws and regulations, the Board of Directors may, by its resolution, decide each of the matters provided in Article 459, Paragraph 1 of the Company Law of Japan, such as distribution of retained earnings (the “Yamabiko Distribution Rules”). Pursuant to this, the Board of Directors may, to the extent that the Yamabiko Distribution Rules are effective in accordance with laws and regulations, determine the acquisition of treasury stock by Yamabiko upon agreement with shareholders (excluding cross-purchases with particular shareholders). There is no provision correspondent to the Yamabiko Distribution Rules in the Articles of Incorporation of Kioritz. However, because there is a provision to the effect that Kioritz may acquire treasury stock upon a resolution of the Board of its Directors pursuant to Article 165, Paragraph 2 of the Company Law of Japan, the Board of Directors of Kioritz may determine to acquire treasury stock through market transactions, among others. In addition to a provision correspondent to the Yamabiko Distribution Rules, the Articles of Incorporation of Shindaiwa include a provision to the effect that these matters shall not be determined by a resolution of the general meeting of shareholders. In the event that such provision (the “Shindaiwa Distribution Rules”) are applicable in accordance with laws and regulations, acquisitions of treasury stock by Shindaiwa, acquisition of Treasury Stock upon agreement with shareholders excluding cross-purchases with particular shareholders, may not be decided by a resolution of a general meeting of the shareholders of Shindaiwa.

2. Distribution of surplus

In the event that the Yamabiko Distribution Rules are applicable in accordance with laws and regulations, the Board of Directors of Yamabiko may decide upon the distribution of surplus (excluding circumstances in which Yamabiko is granting property other than cash, and is not granting rights to demand cash distributions, to shareholders). The distribution of surplus by Kioritz, which has no provision correspondent to the Yamabiko Distribution Rules, is to be determined by the general meeting of shareholders. Furthermore, the distribution of surplus by Shindaiwa, as a result of the Shindaiwa Distribution Rules, may not be decided by the general meeting of shareholders.

In addition, the Articles of Incorporation of Kioritz stipulate that the record date for year-end dividends shall be November 30 of each year, and the Articles of Incorporation of Shindaiwa stipulate that (i) the record date for year-end dividends shall be March 31 of each year, (ii) the record date for interim dividends shall be September 30 of each year, and (iii) that Shindaiwa may establish other record dates and make other distributions of surplus. The Articles of Incorporation of Yamabiko stipulate that, in addition to the record date of the year-end dividend being March 31 of each year, Yamabiko may establish other record dates and make other distributions of surplus.

3. Other

The respective units of shares of Kioritz and Shindaiwa consist of 1,000 shares. However, a unit of shares of Yamabiko consists of 100 shares. Furthermore, although shareholders (including beneficial shareholders) of Kioritz holding less than one unit may not exercise a right to request that Kioritz sell them additional shares to constitute one unit, shareholders (including beneficial shareholders) of Yamabiko holding less than one unit may request that Yamabiko sell them, pursuant to Yamabiko’s Share Handling Regulations, additional shares to constitute one unit.

6. 【Rights of Holders of Shares Issued by Companies Subject to Organizational Restructuring (Kioritz and Shindaiwa)】

1. Management of common stock of companies subject to organizational restructuring

- a. Method by which shareholders may exercise their rights to request their shares be acquired

In order for a shareholder of Kioritz or Shindaiwa to exercise the right of an opposing shareholder to request that the shares which such shareholder owns be purchased, as stipulated in Article 806 of the Company Law of Japan, with respect to the shares of Kioritz or Shindaiwa which such shareholder owns, the shareholder must notify either Kioritz or Shindaiwa of their opposition to the Share Transfer before the shareholders' meeting on June 27, 2008, oppose the Share Transfer at such shareholders' meeting, and clarify the relevant number of shares to be acquired and conduct the acquisition of such shares within 20 days from the date on which notification pursuant to Article 806, Paragraph 3 of the Company Law of Japan or the public notice pursuant to Article 806, Paragraph 4 of the Company Law of Japan is made by Kioritz and Shindaiwa within 20 days from the resolution date of the aforementioned ordinary general meeting of shareholders.

- b. Method by which shareholders may exercise their voting rights

Kioritz

One method by which voting rights may be exercised is to attend and vote at the extraordinary general meeting of shareholders to be held on June 27, 2008. (A shareholder may exercise his or her voting rights through another shareholder who is in possession of Kioritz voting rights as a proxy. In such case, the shareholder or a proxy must submit to Kioritz documentation, produced for each shareholders' meeting, certifying the right of the proxy to represent the shareholder at the relevant extraordinary general meeting of shareholders). In addition, voting rights may also be exercised by mail, in which case the relevant shareholder must exercise their voting rights by 5:15pm on June 26, 2008.

When exercising voting rights by mail, a shareholder must indicate their assent or opposition on the voting form enclosed with the reference documentation pertaining to the aforementioned extraordinary general meeting of shareholders, and return such form, ensuring that it is received by Kioritz within the aforementioned period in which voting rights may be exercised.

The absence of assent, opposition or abstention with respect to a particular proposal on the voting documentation shall be considered to be an indication of assent.

Where a shareholder holds more than one voting right, he or she may exercise such voting rights separately; provided, however, that such shareholder must notify Kioritz by June 24, 2008 of the fact that (i) the shareholder will be exercising their voting rights separately and (ii) the reason for such. Furthermore, Kioritz may refuse the relevant shareholder the right to exercise their voting rights separately if such shareholder is not holding shares for another person.

Shindaiwa

One method by which voting rights may be exercised is to attend and vote at the ordinary general meeting of shareholders to be held on June 27, 2008. (A shareholder may exercise his or her voting rights through another shareholder who is in possession of Shindaiwa voting rights as a proxy. In such case, the shareholder or the proxy must submit to Shindaiwa documentation, produced for each shareholders' meeting, certifying the right of the proxy to represent the shareholder at the relevant ordinary general meeting of shareholders). In addition, voting rights may also be exercised by mail, in which case the relevant shareholder must exercise their voting rights by 5:35pm on June 26, 2008.

When exercising voting rights by mail, a shareholder must indicate their assent or opposition on the voting form enclosed with the reference documentation pertaining to the aforementioned ordinary general meeting of shareholders, and return such form, ensuring that it is received by Shindaiwa within the aforementioned period in which voting rights may be exercised.

The absence of assent, opposition or abstention with respect to a particular proposal on the voting documentation shall be considered to be an indication of assent.

Where a shareholder holds more than one voting right, he or she may exercise such voting rights separately; provided, however, that such shareholder must notify Shindaiwa by June 24, 2008 of the fact that (i) the shareholder will be exercising their voting rights separately and (ii) the reason for such. Furthermore, Shindaiwa may refuse the relevant shareholder the right to exercise their voting rights separately if such shareholder is not holding shares for another person.

- c. Method by which shares issued through organizational restructuring may be obtained

Shares issued through the Share Transfer will be allocated to shareholders registered or recorded on the respective final shareholders' registers of Kioritz and Shindaiwa as of November 30, 2008.

With respect to shares with the JASDEC, shares issued through the Share Transfer may be received without completing any particular procedures.

With respect to shares not with the JASDEC, because administrative work for the Share Transfer shall be conducted throughout the period on or around the date of implementation of Settlement Rationalization Law, procedures for such shares have not yet been determined. With respect to the anticipated practical impossibility of delivering the share certificates representing the common stock of Yamabiko to be allocated through the Share Transfer to shareholders until the date of implementation of the Settlement Rationalization Law, and expectations that administrative matters involved in transferring any securities recorded in the special account opened by Yamabiko to a general account opened by a shareholder at a securities company or other organization will require several weeks from the date of implementation of the Settlement Rationalization Law, please refer to "2. Restrictions on the transfer of shares of Yamabiko, and other restrictions" of "III. Significant Matters to be Noted with Respect to Offering or Sale" in "Part I. Securities Information".

- 2. Management of stock acquisition rights of companies subject to organizational restructuring

- a. Method by which shareholders may exercise their rights to request their stock acquisition rights be acquired

With respect to stock acquisition rights issued by Shindaiwa, there is no stipulation which requires stock acquisition rights issued by a parent company which is established through a Share Transfer to be delivered in such Share Transfer to the holders of any relevant stock acquisition rights. Furthermore, the share transfer plan pertaining to the Share Transfer does not include a stipulation by which stock acquisition rights of Yamabiko will be delivered to holders of stock acquisition rights issued by Shindaiwa. Therefore, pursuant to Article 808, Paragraph 1 of the Company Law of Japan, holders of stock acquisition rights issued by Shindaiwa do not have the right to request that such stock acquisition rights be purchased by Shindaiwa. (Shindaiwa intends to acquire all stock acquisition rights which it has issued at no cost and extinguish them).

Kioritz has not issued any stock acquisition rights as of the date of this Registration Statement. Furthermore, neither Kioritz nor Shindaiwa has issued warrant bonds as of the date of this Registration Statement.

- b. Method by which stock acquisition rights issued through organizational restructuring may be obtained

Stock acquisition rights will not be issued through the Share Transfer.

7. 【Procedures with Respect to Organizational Restructuring】

1. Details of documents prepared pursuant to the Company Law of Japan pertaining to organizational restructuring, and method by which such documents may be viewed

In accordance with Article 803, Paragraph 1 of the Company Law of Japan, and Article 206 of the Company Law Enforcement Regulations of Japan, the following documents pertaining to the Share Transfer shall be provided at the respective headquarters of Kioritz and Shindaiwa from June 12, 2008: (i) the share transfer plan, (ii) information pertaining to the suitability of matters stipulated in Article 773, Paragraph 1, Sections 5 and 6 of the Company Law of Japan, and (iii) documents containing the contents of the financial reports for the most recent fiscal year of Kioritz (to be held at Shindaiwa) and Shindaiwa (to be held at Kioritz). In addition, if circumstances have arisen, after the last day of the most recent fiscal year of Kioritz or Shindaiwa, which have materially affected the financial condition of either Kioritz or Shindaiwa, (iv) documentation describing the details of such shall also be provided.

The documentation referred to in (i) is the share transfer plan approved at the respective meetings of the Boards of Directors of Kioritz and Shindaiwa on April 14, 2008. The documentation referred to in (ii) describes the Share Transfer Ratio to be used in the Share Transfer and the basis of the calculation of such share transfer ratio, and documents explaining the appropriateness of the amounts of capital stock and reserves for Yamabiko, as stipulated in the aforementioned share transfer plan. The documentation referred to in (iii) relates to the financial reports and other information of Kioritz for the fiscal year ended November 30, 2007, or the financial reports and other information of Shindaiwa for the fiscal year ended March 31, 2008. The documentation referred to in (iv) will be provided in the event that circumstances arise which materially affect the financial condition of either Kioritz or Shindaiwa subsequent to the final day of the fiscal year ended November 30, 2007 in the case of Kioritz, or the final day of the fiscal year ended March 31, 2008 in the case of Shindaiwa, and shall include the details of any such circumstances.

These documents may be viewed at the respective headquarters of either Kioritz or Shindaiwa.

2. Shareholders' meeting procedures and schedule with respect to organization restructuring

March 31, 2008 (Monday)	Record date of ordinary general meeting of shareholders (Shindaiwa)
April 14, 2008 (Monday)	Meetings of the Board of Directors to approve the Share Transfer Plan (Kioritz and Shindaiwa)
April 15, 2008 (Tuesday)	Public notice of record date for extraordinary general meeting of shareholders (Kioritz)
April 30, 2008 (Wednesday)	Record date for extraordinary general meeting of shareholders (Kioritz)
June 27, 2008 (Friday) (scheduled)	Shareholders' meeting to approve the Share Transfer Plan (Kioritz and Shindaiwa)
November 25, 2008 (Tuesday) (scheduled)	Date on which shares will be delisted (Kioritz and Shindaiwa)
December 1, 2008 (Monday) (scheduled)	Effective date of the Share Transfer (date of incorporation of Yamabiko). Date on which shares of Yamabiko will be listed.

Provided, however, that the schedule is subject to change pursuant to discussions between Kioritz and Shindaiwa in the event that unavoidable circumstances occur during the completion of procedures hereafter.

3. Method by which a person in possession of marketable securities which have been issued by a company subject to the organizational restructuring may exercise the right to request acquisition of such securities during the organizational restructuring

- (1) Shares

In order for a shareholder of Kioritz or Shindaiwa to exercise the right of an opposing shareholder to request that the shares which such shareholder owns be purchased, as stipulated in Article 806 of the Company Law of Japan, with respect to the shares of Kioritz or Shindaiwa which such shareholder owns, each opposing shareholder must notify respective Kioritz or Shindaiwa of their opposition to the Share Transfer before the shareholders' meeting on June 27, 2008, oppose the Share Transfer at such shareholders' meeting, and exercise their rights for the relevant number of shares to be acquired either within 2 weeks from the date on which notification pursuant to Article 806, Paragraph 3 of the Company Law of Japan or within 20 days from the date on which public notice pursuant to Article 806, Paragraph 4 of the Company Law of Japan is made by Kioritz and Shindaiwa, which shall occur within 20 days from the resolution date of the aforementioned shareholders' meeting.

- (2) Stock Acquisition Rights

With respect to stock acquisition rights issued by Shindaiwa, there is no stipulation which requires stock acquisition rights issued by a parent company which is established through a share transfer to be delivered in such share transfer to the holders of any relevant stock acquisition rights. Furthermore, the share transfer plan pertaining to the Share Transfer does not include a stipulation by which stock acquisition rights of Yamabiko will be delivered to holders of stock acquisition rights issued by Shindaiwa. Therefore, pursuant to Article 808, Paragraph 1 of the Company Law of Japan, holders of stock acquisition rights issued by Shindaiwa do not have the right to request that such stock acquisition rights be purchased by Shindaiwa. (Shindaiwa intends to acquire all stock acquisition rights which it has issued at no cost and extinguish them).

II. Integrated Financial Information

1. Yamabiko

Because Yamabiko has not been established as of the date of this Registration Statement, there is no financial information available as of the date of this Registration Statement.

2. Yamabiko after the Completion of the Organizational Restructuring

As stated above, there is no financial information available for Yamabiko as of the date of this Registration Statement. The following are aggregated numbers of major management indices - “net sales”, “ordinary income” and “net income” of both Kioritz and Shindaiwa for the recent consolidated fiscal year. Please be advised that the following figures are simply combined amounts and have not been audited by an auditing firm. In addition, because it is difficult to simply combine indices other than “net sales”, “ordinary income” and “net income”, and such a simple combination might cause investors to make wrong decisions, such combinations are not presented here.

Sales Segment	503 (5)
Company-wide (common)	253 (16)
Total	2,020 (591)

- (Notes)
1. The number of employees listed in “Company-wide (common)” is the number of employees who belong to the management/technology segments that cannot be classified into certain segments.
 2. The “Number of Employees” listed above is the number of full-time employees. The average number of part-time employees is shown in brackets and is excluded from “Number of Employees”.

Shindaiwa

Business segment information for Shindaiwa is not listed, and therefore, the number of employees is categorized by the description of work. As the Shindaiwa Group does not divide business segments based on its products, it is difficult to list the number of employees based on the product segments. Therefore, the data below is classified by description of work.

(as of March 31, 2008)

Name of Categories of Work	Number of Employees (persons)
Manufacturing Section	264
Sales Section	244
Development Section	131
Management Section	66
Total	705

- (Notes)
- The number of employees listed above excludes seconded employees from the Shindaiwa Group to companies outside the Shindaiwa Group, but includes employees seconded to the Shindaiwa Group from other companies.

(3) Labor Union Information

a. Yamabiko

N/A

b. Consolidated Subsidiaries

Labor Unions of Kioritz for the 64th term (from December 1, 2006 to November 30, 2007) and of Shindaiwa for the first half of the 47th term (from April 1, 2007 to September 30, 2007), are as follows:

Kioritz

The labor union of Kioritz is called the “Kioritz Labor Union” (number of union members: 455 persons) and is a member of the JAM, a higher organization, as an observer. Consolidated subsidiaries of Kioritz do not have labor unions. There is nothing to report on the employer-employee relationship, as it is generally favorable.

Shindaiwa

The labor union of Shindaiwa is called the “JAM Shindaiwa Labor Union” and was established on April 17, 1976. It is a member of the JAM and the number of union members was 280 as of March 31, 2008. In addition, the “Shindaiwa Business Support Labor Union” is organized for Shindaiwa Business Support Co., Ltd., a consolidated subsidiary of Shindaiwa. Other consolidated subsidiaries do not have labor unions. There is nothing to report on the employer-employee relationship.

II. Description of Business

1. 【Summary of Business Results】

Because Yamabiko has not been established as of the date of this Registration Statement, there is no information available with respect to its business results.

With respect to the business results of Kioritz and Shindaiwa, both of which will become wholly-owned subsidiaries of Yamabiko, please refer to their respective Annual Securities Reports (as filed with the Kanto Local Finance Bureau by Kioritz on February 29, 2008 and by Shindaiwa on June 25, 2007) as well as the Semi-Annual Securities Report of Shindaiwa (as filed on December 21, 2007).

2. 【Production, Received Orders and Sales】

Because Yamabiko has not been established as of the date of this Registration Statement, there is no information available with respect to production, received orders and sales.

With respect to production, received orders and sales of Kioritz and Shindaiwa, which are to become wholly owned subsidiaries of Yamabiko, please refer to their respective Annual Securities Reports (as filed with the Kanto Local Finance Bureau by Kioritz on February 29, 2008 and by Shindaiwa on June 25, 2007) as well as the Semi-Annual Securities Report of Shindaiwa (as filed on December 21, 2007).

3. 【Outstanding Issues】

Because Yamabiko has not been established as of the date of this Registration Statement, there are no outstanding issues.

With respect to outstanding issues of Kioritz and Shindaiwa, please refer to their respective Annual Securities Reports (as filed with the Kanto Local Finance Bureau by Kioritz on February 29, 2008 and by Shindaiwa on June 25, 2007) as well as the Semi-Annual Securities Report of Shindaiwa (as filed on December 21, 2007).

4. **【Business-Related Risks】**

Although Yamabiko has not been established as of the date of this Registration Statement, predicted risks with respect to the management integration of Yamabiko Group in relation to the Share Transfer are described in (1) below. In addition, upon completion of the Share Transfer, Yamabiko will become the parent company of Kioritz and Shindaiwa, and therefore, after incorporation of Yamabiko, business risks pertaining to Kioritz and Shindaiwa as of the date of this Registration Statement may become business risks of Yamabiko. Business risks of Yamabiko based on business risks of Kioritz and Shindaiwa are described in (2) and (3) below.

Please be advised that, although this section contains forward-looking statements, such statements are determined as of the date of this Registration Statement, unless otherwise specified.

(1) Risks related to management integration

a. Share Transfer procedure

The Share Transfer procedure has not been completed as of the date of this Registration Statement, and there may be a possibility that the process may not progress as scheduled. In addition, the Share Transfer is subject to various conditions (including, but not limited to, taking the necessary procedures under the Act Concerning Prohibition of Private Monopoly and Maintenance of Fair Trade and the U.S. securities laws), such as obtaining certain approvals, making reports and submitting documents and meeting filing requirements. Therefore, if the domestic and overseas regulatory authorities diminish the expected benefits of the Share Transfer by suspending or delaying the Share Transfer, or the attaching conditions which would make it difficult to complete the Share Transfer as planned, the Share Transfer may not be completed as scheduled, or may not happen at all. If such an event occurs, they may cause a material adverse effect on the financial position and business results of the Yamabiko Group, the Kioritz Group or the Shindaiwa Group.

b. Effects of the management integration

If we fail to achieve the expected benefits of the management integration, the financial position and business results of Yamabiko Group might be materially adversely affected.

Some possible factors which may prevent Yamabiko from realizing the expected benefits of the integration include, but are not limited to, the following:

- Delays in product development, deterioration in relationships with customers or business partners, deterioration of trust, delays in effective allocation of personnel and production/operation base, not being able to realize the expected benefits of integration in terms of revenue due to various factors including disunity of marketing strategies
- Not being able to enhance business efficiency and reduce cost as expected, due to the failure to carry out business efficiency enhancement measures and cost reduction measures, including the integration of products, production sites, sales/distribution networks, head office structure, and overlapping financial/information systems
- Incurring unexpected costs, due to (i) the integration of products, production sites, sales/distribution networks, head office structure, and financial/information systems and (ii) reallocation of employees, among others, pursuant to the management integration of the two companies

(2) Risks related to the business of Kioritz

Risks which could cause a material adverse effect on the financial position and business results of the Kioritz Group are as follows:

a. Fluctuation of currency exchange rates

Approximately 60% of the revenue of the Kioritz Group is from North America and is dominated in U.S. dollars. Depending on the currency exchange rates, its sales and profits may decrease. Although measures to hedge risks such as the expansion of overseas production, overseas procurement of parts and materials, and foreign exchange forward contracts are taken, it is impossible to completely avoid the impact of currency exchange rates on the business results.

b. Abnormal weather

If weather conditions such as cold weather, typhoons and floods cause significant damage to agricultural products in Japan, the income of farmers in Japan will decrease, and accordingly, the purchasing power of such farmers who are major domestic customers of the Kioritz Group may delay. In addition, abnormal weather, both in Japan and overseas, may adversely affect the sales of the Kioritz Group – one example is that, if the growth of plants is severely affected, such as by drought, farmers' need to cut grass will decline and lead to the deterioration of demand for grass cutters, a major product of the Kioritz Group.

c. Domestic agriculture

In the domestic agriculture sector, which is one of the major markets in which the Kioritz Group operates, depending on government policies such as rice production adjustment or import liberalization of agricultural products, the agricultural structure may change significantly and demand for products that the Kioritz Group produces and sells may decline significantly and domestic sales may decrease.

d. Regulations around the world

If regulations relating to safety or the environment applicable to the products that the Kioritz Group produces and sells are tightened, including the emission control on small engines already implemented in the U.S. and Europe, considerable costs for development or investment in production facilities may be required in order to comply with such regulations.

(3) Risks related to the business of Shindaiwa

Risks which could affect the business results, share price and financial results of the Shindaiwa Group are as follows:

a. Economic environment

The Shindaiwa Group conducts its business globally with agricultural and forestry machinery and machinery for civil engineering work and steelwork as its main products. Therefore, agricultural policies, public investment, trends in private capital investment, and demand and supply in Japan and foreign countries may affect the business results of the Shindaiwa Group.

b. Competition with other companies

In the business sector in which the Shindaiwa Group operates, competition over development of new products, the price reduction, after-sales service and business terms is becoming fiercer. If the Shindaiwa Group becomes inferior in quality and business terms compared to other companies, the business results of the Shindaiwa Group may be adversely affected.

c. Market risk

As approximately half of the sales of the Shindaiwa Group are in U.S. dollars, the business results of the Shindaiwa Group may be affected by currency exchange rates. Furthermore, business results may also be affected by a rise in interest rates, which may increase interest paid.

d. Procurement of raw materials and parts

Although the Shindaiwa Group strives to ensure stability in its supply of raw materials and parts, if such supply becomes unstable due to factors such as a steep rise in commodity prices, the business results of the Shindaiwa Group may be affected.

e. Environmental regulation

Many products of the Shindaiwa Group are equipped with gasoline and diesel engines. The Shindaiwa Group strives to take measures to comply with environmental regulations such as emission control in various countries ahead of time, however, business results may be affected if new regulations are imposed on the Shindaiwa Group.

f. Product liability

When engaging in product development and manufacturing, the Shindaiwa Group considers safety as its highest priority. The Shindaiwa Group is also covered by product-liability insurance as a measure of precaution. However, if an unpredictable event occurs in the course of designing, manufacturing and using its products, the business results of the Shindaiwa Group may be affected.

g. Compliance

The Shindaiwa Group makes efforts to enhance its compliance system through improving the cross-group compliance system, by establishing a risk management system, a compliance committee, a management planning office and an internal audit office, and appointing a head of compliance. However, if compliance-related issues such as violation of laws and regulations or social ethics arise, the business results of the Shindaiwa Group may be materially affected due to punishment, lawsuit, and loss of trust.

h. Securing human resources

Although it is indispensable for the Shindaiwa Group's continuous growth to secure excellent human resources, due to the backdrop of the recent economic recovery in Japan, competition in recruitment of new graduates and mid-career workers has been severe. Under these circumstances, if the Shindaiwa Group fails to recruit personnel as planned, the future growth of the Shindaiwa Group will be impacted, affecting the Shindaiwa Group's business results as well.

i. Meteorological/natural disasters

Sales of agricultural and forestry machinery, which are the main products of the Shindaiwa Group, are affected by weather conditions in our sales territories. If the sales of the Shindaiwa Group's machinery drop due to bad weather, the business results of the Shindaiwa Group may be affected.

Furthermore, because the production sites of the Shindaiwa Group are concentrated in Kitahiroshima-cho, Hiroshima, if facilities are damaged due to natural disaster or if traffic is shut down, production of the Shindaiwa Group will slow down, which may affect the business results of the Shindaiwa Group.

5. 【Material Contracts with Respect to Corporate Management 】

Because Yamabiko has not been established as of the date of this Registration Statement, there are no material contracts with respect to corporate management.

With respect to material contracts with respect to corporate management of Kioritz and Shindaiwa, please refer to their respective Annual Securities Reports (as filed with the Kanto Local Finance Bureau by Kioritz on February 29, 2008 and by Shindaiwa on June 25, 2007), as well as the Semi-Annual Securities Report of Shindaiwa (as filed on December 21, 2007).

In addition, with respect to the Share Transfer Plan, the purpose of the Share Transfer, and the terms of the Share Transfer, please refer to “I. Summary of Organizational Restructuring (Tender Offer)” of “Part II. Organizational Restructuring (Tender Offer)”.

6. 【Research and Development Activities】

Because Yamabiko has not been established as of the date of this Registration Statement, there is no information available with respect to research and development activities.

With respect to the research and development activities of Kioritz and Shindaiwa, please refer to their respective Annual Securities Reports (filed with the Kanto Local Finance Bureau by Kioritz on February 29, 2008 and by Shindaiwa on June 25, 2007), as well as the Semi-Annual Securities Report of Shindaiwa (filed on December 21, 2007).

7. 【Analysis of Financial Conditions and Operating Results】

Because Yamabiko has not been established as of the date of this Registration Statement, there is no information available with respect to the analysis of financial conditions and operating results.

With respect to the analysis of financial conditions and operating results of Kioritz and Shindaiwa, please refer to their respective Annual Securities Reports (filed with the Kanto Local Finance Bureau by Kioritz on February 29, 2008 and by Shindaiwa on June 25, 2007).

IV. Description of Yamabiko

1. 【Stock Information】

(1) Total Number of Shares

The number of shares of Yamabiko as of December 1, 2008 is as follows:

a. Total number of shares

Class	Authorized shares (shares)
Common Stock	40,000,000
Total	40,000,000

b. Number of issued and outstanding shares

Class	Number of issued and outstanding shares (shares)	Name of Stock Exchange where listed or Securities Dealers Association where registered
Common Stock	11,099,232	Tokyo Stock Exchange Group, Inc.

Total number of voting rights of all shareholders	—	25,202	—

(Notes) 1. The number of shares of common stock in “Shares Constituting Less Than One Unit” includes 190 shares held by Shindaiwa as treasury stock.

2. The above information is as of March 31, 2008, and the numbers may change before the Date of Incorporation of Yamabiko.

b. Treasury Stock

Because Yamabiko will be established through the Share Transfer, Yamabiko will not hold treasury stock as of December 1, 2008, the date on which the Share Transfer shall become effective. Shares of Yamabiko cross-held as of the Date of its Incorporation as well as treasury stock of Kioritz as of April 30, 2008 and Shindaiwa as of March 31, 2008, are as follows:

Yamabiko

Name of Holder	Address of Holder	Number of Shares Owned in its Own Name (shares)	Number of Shares Owned in Other Person's Name (shares)	Total Number of Shares Owned (shares)	Percentage of Shareholding Percentage of the Total Outstanding Shares (%)
(crossholding shares) Kioritz	1-7-2, Suehiro- cho, Ome-shi, Tokyo	89,300	—	89,300	0.805
(crossholding shares) Shindaiwa	6-2-11 Ozuka- Nishi, Asaminami- ku, Hiroshima	129,300	—	129,300	1.165
Total	—	—	—	218,600	1.970

(Note) The above figures are calculated based on (i) treasury stock of Kioritz and shares of Shindaiwa both held by Kioritz as of April 30, 2008, and (ii) treasury stock of Shindaiwa and shares of Kioritz both held by Shindaiwa as of March 31, 2008, taking into consideration the Share Transfer Ratio of the Share Transfer. If stock acquisition rights are exercised before the Date of Incorporation of Yamabiko, the number of shares which Yamabiko delivers may change.

Kioritz

- (Notes)
1. Among statutory auditors, Masato Tanaka and Tetsuo Yamashita are outside auditors as defined in Article 2, Paragraph 16 of the Company Law of Japan.
 2. The terms of office of directors are from the Date of Incorporation of Yamabiko on December 1, 2008 until the close of the ordinary general meeting of shareholders of Yamabiko for the fiscal year ending March 31, 2009.
 3. The terms of office of statutory auditors are from the Date of Incorporation of Yamabiko on December 1, 2008 until the close of the ordinary general meeting of shareholders of Yamabiko for the fiscal year ending March 31, 2009.
 4. Titles in the above list are those which have been decided as of the date of this Registration Statement.

6. **【Corporate Governance】**

- (1) In addition to general meetings of shareholders and Directors, the Company shall establish/appoint:
 - Board of Directors
 - Statutory Auditors
 - Board of Statutory Auditors
 - Accounting Auditor
- (2) There is no conflict of interests between the Outside Auditors and Yamabiko other than Messrs. Masato Tanaka and Tetsuo Yamashita, Outside Statutory Auditors of Yamabiko, who also serve as Outside Auditors of Kioritz and Shindaiwa respectively, both of which companies are to become wholly-owned subsidiaries of Yamabiko.
- (3) Because Yamabiko has not been established as of the date of this Registration Statement, remuneration of Directors and Statutory Auditors shall be determined by the resolution of the general meeting of shareholders; provided, however, that remuneration for Directors and Statutory Auditors of Yamabiko during the period from the date of its establishment until the close of the first ordinary general meeting of shareholders is defined in the Articles of Incorporation – which is “no more than 150 million Japanese yen in total for Directors” and “no more than 40 million Japanese yen in total for Statutory Auditors”.
- (4) The Articles of Incorporation of Yamabiko state that the number of Directors of Yamabiko shall be no more than ten (10). The Articles of Incorporation also stipulates that a resolution to elect Directors shall be made at a meeting at which the shareholders holding one-third (1/3) or more of the voting rights of the total voting rights are present, and shall be adopted by a majority of votes thereof.
- (5) The Articles of Incorporation of Yamabiko provide that, pursuant to the provisions of Article 426, Paragraph 1 of the Company Law of Japan and to the extent permitted by laws and regulations, Yamabiko may, by resolution of the Board of Directors, exempt its Directors (including persons who have previously served as Yamabiko’s Directors) and Statutory Auditors (including persons who have previously served as Yamabiko’s Statutory Auditors) from liability for failing to perform their duties. The Articles of Incorporation also stipulate that, pursuant to the provisions of Article 427, Paragraph 1 of the Company Law of Japan, Yamabiko may enter into contracts with its Outside Directors to limit their liability for failure to perform their duties, provided that the maximum amount of liability under such contracts shall be the total of the amounts provided under applicable laws and regulations. The objective of these provisions is for Directors and Statutory Auditors to fully play their expected roles.
- (6) The Articles of Incorporation stipulates that special resolutions of the shareholders set forth in Article 309, Paragraph 2 of the Company Law of Japan require an affirmative vote of two-thirds (2/3) of the total voting rights present at a meeting of shareholders. At least one-third (1/3) of the total voting rights must be represented at a meeting to constitute a quorum. The objective of this provision is to smoothly operate general meetings of shareholders by reducing the quorum required for a special resolution at the shareholders’ meeting.
- (7) In order for Yamabiko to flexibly return profits to its shareholders, the Articles of Incorporation stipulates that, unless otherwise provided under laws and regulations, the Board of Directors may, by its resolution, decide the matters provided in Article 459, Paragraph 1 of the Company Law of Japan, such as distribution of retained earnings.
- (8) Because Yamabiko has not been established as of the date of this Registration Statement, matters other than above have not yet been determined.

V. **Financial Condition**

Because Yamabiko has not been established as of the date of this Registration Statement, it has not completed a financial term and therefore, there is no information available with respect to consolidated financial statements.

With respect to the financial condition of Kioritz and Shindaiwa, which are to become wholly-owned subsidiaries of Yamabiko, please refer to their respective Annual Securities Reports (as filed with the Kanto Local Finance Bureau by Kioritz on February 29, 2008 and by Shindaiwa on June 25, 2007) as well as the Semi-Annual Securities Report of Shindaiwa (as filed on December 21, 2007).

	<p>(d) Assessment of hedging effectiveness The Company evaluates hedging effectiveness by comparing the changes in fair value of hedged items and hedging instruments. Because the special treatment is adopted for interest rate swaps, assessment of hedging effectiveness is omitted.</p> <p>(7) Accounting standards of overseas consolidated subsidiaries Overseas consolidated subsidiaries comply with the respective accounting standards of the countries in which they conduct their business. There are no significant differences between the accounting standards of overseas subsidiaries and those of the Company.</p> <p>(8) Consumption and other taxes Consumption taxes and local consumption taxes are excluded from the revenue and expense accounts which are subject to such taxes. (Excludes overseas subsidiaries).</p>	<p>(d) Assessment of hedging effectiveness Same as the previous fiscal year.</p> <p>(7) Accounting standards of overseas consolidated subsidiaries Same as the previous year.</p> <p>(8) Consumption and other taxes Same as the previous fiscal year.</p>
5. Valuation of the assets and liabilities of consolidated subsidiaries	In the elimination of investments in subsidiaries, the assets and liabilities of the subsidiaries, including the portion attributable to minority shareholders, are evaluated using the fair market value method at the time when the Company acquired control of the respective subsidiaries.	Same as the previous fiscal year.
6. Consolidation differences	Differences between the acquisition costs and the underlying net equities of investments in consolidated subsidiaries are recorded as consolidation differences in the consolidated balance sheet and amortized using the straight-line method over 5 years. If the amount is small, it is fully recognized as income or loss as incurred.	_____
7. Goodwill and negative goodwill	_____	Goodwill and negative goodwill are amortized using the straight-line method over 5 years. If the amount is small, it is fully recognized as income or loss as incurred.
8. Cash and cash equivalents	In preparing the consolidated statement of cash flows, cash on hand, readily available deposits and short-term highly liquid investments with negligible risk of changes in value and maturities not exceeding 3 months at the time of purchase are considered to be cash and cash equivalents.	Same as the previous fiscal year.

(DERIVATIVE TRANSACTIONS)

(Year ended November 30, 2006)

1. Status of derivative transactions

With respect to derivative transactions, the Kioritz Group focuses on hedging risks as part of its financial risk management measures. Specifically, the Kioritz Group utilizes forward foreign exchange contracts to reduce future foreign currency exchange risks of assets and liabilities denominated in foreign currencies. In addition, the Kioritz Group utilizes interest rate swap transactions to fix interest on borrowings which are affected by floating interest rates, and commodity swap transactions to reduce fluctuation risks of prices of materials that the Kioritz Group purchases. The Kioritz Group chooses financial institutions with high credit standing as its counter parties, in order to avoid credit risks as much as possible.

Furthermore, derivative transactions are conducted pursuant to internal rules on operations which stipulate the appropriate operating policies, management structure and implementation procedures.

Hedge instruments are described in “(6) Hedge Accounting” of “4. Accounting Policies” of “Significant Accounting Policies”.

CHANGES IN ACCOUNTING POLICIES

Year ended March 31, 2006	Year ended March 31, 2007
<p>(Accounting standards for impairment of fixed assets)</p> <p>Effective from the consolidated fiscal year ended March 31, 2006, the Company adopted “Accounting Standards for Impairment of Fixed Assets” (“Opinion concerning the Accounting Standards for Impairment of Fixed Assets” (Business Accounting Deliberation Council, August 9, 2002)) and “Implementation Guidance for Accounting Standards for Impairment of Fixed Assets” (Accounting Standards Board Guidance No. 6, October 31, 2003). Because of this adoption, the Company recorded an impairment loss of ¥28,336,000 as special expenses, which resulted in the decrease of income before income taxes in the same amount. Accumulated impairment losses are deducted from the amounts of each asset pursuant to the revised “Regulations Concerning the Terminology, Forms and Preparation Methods of Financial Statements”.</p>	—
<p>(Changes in calculation of profits and expenses of overseas subsidiaries, etc.)</p> <p>Effective from the consolidated fiscal year ended March 31, 2006, the Company changed the calculation method for profits and expenses of overseas subsidiaries, etc., which used to be calculated utilizing the spot exchange rate at the fiscal year end of such subsidiaries, to a method utilizing the average rate during the period.</p> <p>If the Company calculates each item of profits and expenses of overseas subsidiaries, etc. which are generated throughout the consolidated fiscal year by utilizing the spot exchange rate, there is a possibility that the Company’s actual accounting status may not be presented accurately due to the fluctuation of the spot exchange rate. In order to avoid such failure and to present its actual accounting status more accurately, the Company adopted this change.</p> <p>The effect of this change in method was to decrease sales by ¥407,816,000, gross profit on sales by ¥344,823,000, operating income by ¥290,013,000, ordinary income by ¥4,470,000, and income before income taxes by ¥4,472,000, compared with what would have been recorded under the same method utilized for the previous fiscal year.</p> <p>The effect of this change on segment information is explained in Note in the “SEGMENT INFORMATION”.</p>	—
—	<p>(Accounting standards for presentation of net assets in the balance sheet)</p> <p>Effective from the consolidated fiscal year ended March 31, 2007, the Company adopted Accounting Standards Board Statement No. 5 “Accounting Standards for Presentation of Net Assets in the Balance Sheet” issued by the Accounting Standards Board of Japan on December 9, 2005 and Accounting Standards Board Guidance No. 8 “Guidance on Accounting Standards for Presentation of Net Assets in the Balance Sheet” issued by the Accounting Standards Board of Japan on December 9, 2005. This change in accounting policy has no effect on profit and loss. The amount corresponding to conventional “Total Shareholders’ Equity” in the balance sheet is ¥8,422,566,000. The consolidated financial statements for the year ended March 31, 2007 are presented according to the revision of “Regulations Concerning the Terminology, Forms and Preparation Methods of Financial Statements”.</p>

—	<p>(Allowance for bonuses for directors and statutory auditors)</p> <p>Effective from the year ended March 31, 2007, the Company adopted Accounting Standards Board Statement No. 4 “Accounting Standard for Directors’ Bonus” issued by the Accounting Standards Board of Japan on November 29, 2005. As a result, operating income, ordinary income and net income before tax decreased by ¥33,200,000 respectively, compared to what would have been recorded under the previous accounting standard.</p> <p>The effect of this change on segment information is explained in Note in the “SEGMENT INFORMATION”.</p>

(DERIVATIVE TRANSACTIONS)

1. Status of derivative transactions

(Year ended March 31, 2006)

The Company is the only entity among the Company Group that engages in derivative transactions. Subsidiaries do not engage in derivative transactions.

The Company utilizes forward foreign exchange contracts to reduce future foreign currency exchange risks of assets and liabilities denominated in foreign currencies. In addition, the Company utilizes interest rate swap transactions for some of its borrowings to reduce future increases in interest rates of long-term borrowings.

The Company currently utilizes derivative transactions and conducts hedge accounting.

a. Hedging instruments and hedged items

Hedging instruments	Hedged items
Interest rate swaps	Interest in borrowings
Forward foreign exchange contracts	Financial assets and liabilities denominated in foreign currencies

b. Hedging policy

The Company utilizes forward foreign exchange contracts to reduce foreign currency exchange risks of transactions denominated in foreign currencies. In addition, the Company utilizes interest rate swap transactions to mitigate interest rate fluctuation risks on borrowings. Hedge accounting is determined on the basis of each individual contract.

c. Assessment of hedging effectiveness

Pursuant to the risk management policy, the Company engages in interest rate swaps which satisfy the following conditions:

- I. Notional principal of the interest rate swap and the principal amount of the short-term borrowing are consistent.
- II. Contract period and maturity date of interest rate swap and short-term borrowing are consistent.
- III. Floating interest rate index for short-term borrowing and floating interest rate index to be received and paid at interest rate swap are consistent at LIBOR + 0.5%.
- IV. Conditions for the revision of interest rate of short-term borrowing and interest rate swap are consistent.
- V. Conditions for receipt and payment of interest rate swap are constant through the period of swap.

The Company does not enter into derivative contracts for speculative purposes.

The counter parties of these derivative contracts are prime financial institutions with high credit standing. The Company has judged the risk of them not being able to satisfy their obligations under the contracts to be minimal. However, forward foreign exchange contracts used with respect to currencies expose the Company to a risk of loss as a result of fluctuations of foreign currency exchange rates. In addition, interest rate swap transactions used with respect to interest rates expose the Company to a risk of loss as a result of fluctuations of market interest rates.

The basic policy with respect to derivative transactions is determined at the management meeting, the transaction is conducted by a transaction manager in the accounting group, and the accounting group leader considers the transaction and approves it. Furthermore, the results of the transaction are reported and recorded, among others, by a separate risk management manager. The rights contemplated by the transactions and limitations on the value of such transactions are outlined in the corporate management regulations, and the results of the transactions are reported to the board of directors at the monthly meeting of the board of directors.

(SEGMENT INFORMATION)

1. Business segment information

The majority of products of the Company Group are manufactured at the Company's factory in Chiyoda, and the sales activities are handled through a sole organization. Accordingly, it is difficult to ascertain information with respect to assets and profit or loss for individual business classifications. Accordingly, business segment information has not been prepared for the interim consolidated fiscal years ended September 30, 2006 and 2007, as well as consolidated fiscal year ended March 31, 2006.

2. Geographical segment information
